PROFILE

I've been in the industry for 18 years. I work across documentary, drama, promos, music videos and corporates. Over the past few years I have directed work for clients including Sony, VO5, Boots, BBC Drama, the NHS, Veuve Clicquot, Shelter and Friends of the Earth.

I have also directed second unit the prime-time dramas *Married, Single, Other* and *Place of Execution* for ITV and had several films screened at festivals around the world.

I write, direct, shoot and edit. I spent my formative years in the camera department on TV dramas and features including *Sherlock*, *Vera*, *Skins* and *The Street*. I shoot to a high standard, both in my own material and also as a Director of Photography and Camera Operator on features, documentaries and commercials. I have experience across a whole range of camera formats and systems.

I am also an accomplished editor and have an excellent knowledge of compositing and motion graphics and colour grading and have my own edit and grading suite.

I am a truly multi-skilled, hands-on filmmaker with a broad production knowledge and a strong understanding of structure and visual storytelling.

There are examples of my work on my website at www.martinscanlan.com.
